

Investigating Colour

Can you match the colours of birds to things in your house and in your garden?

Over the next two pages are a list of birds and their colours. Can you find any objects in your house that have the same colour?

Can you find any objects in your garden that have the same colour?

If you have found all the objects in your house and in your garden that have the same colour can you spot any birds flying past your window or pecking in your garden that have the same colour?

Use the space below to list the objects you find and to list any birds that you might spot.

Grey Grey Partridge

White Whitethroat

Purple Purple Sandpiper
