What did you see?

Once a week or even every day if you wish, look at the number and species of birds around your school. Count how many of each species are using your school grounds (though don't include those that are simply flying over).

Write in the boxes for each date the highest number of birds you see together at one time on that date.

Example: Today, imagine you see 4 Blackbirds on the school field this morning. Then at lunchtime you see 3 together, then this afternoon you see 2 Blackbirds. Your highest score for Blackbird for the day would be 4!

Copy the form as many times as you wish for as many dates as you wish to record.
